Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02. The oath or declaration is defective because it does not properly state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

COMMENTS

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: claim 1 defines a sewing machine including a needle bar with needle, a rotary member concentric to the needle, a rotary holder member having a sewing material wound thereon, a guide which is rotatable along with the rotary member and provided for guiding and paying out the material from the holding member. A tension detector for detecting tension on the material paid out from the holder and a drive device for driving or rotating the holder member. The driving member is controlled relative to the tension detector. The dependent claims further limit the structure of the sewing machine of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nassberg, Haas et al. Tajima et al. '628, Groebli, Russell and Hochstrasser illustrate sewing machines including payout devices and/ or guides for guiding sewing materials and rotating members concentric about the needles. Trojan, Non-Hagen et al. and Hiraoka et al. illustrate sewing machines including metering or paying out devices.
